## Safety Tips / Announcements

# Catalytic Converter Thefts

Thieves target catalytic converters because many contain precious metals, which are then sold to a scrap yard for cash.

## What Can You Do?

- When possible, park in well-lit areas and close to building entrances.
- Calibrate your car's alarm to set off when it detects vibration.
- Install an overt video surveillance system and place the camera facing your vehicle.
- If you have a garage at your house, park your car inside and keep the garage door shut.
- Have the catalytic converter welded to your car's frame or attach a security device.
- Engrave your vehicle identification number (VIN) on the catalytic converter.
